DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 8.

ADA, OKLAHOMA, THURSDAY EVENING, JUNE 22, 1911

NUMBER 67.

## FIRE DESTROYS SMALL HOUSE

TWO ROOM RESIDENCE ON 17TH  
STREET BURNED—FIREMEN  
DO GOOD WORK.

About 9 o'clock this morning fire destroyed a two room house at the corner of 17th and Cherry. The building was the property of Joseph Wallace, who lives on 16th street, and was occupied by Geo. Smith, an employee at the cement plant, and his wife. For a time the two room house adjoining, which was occupied by Mrs. Hiser, was seriously threatened, and had it gone several others would have been endangered. The fire company managed to save it.

No one was at home when the fire started and when discovered it had made such headway that it was impossible to save much from the house, a sewing and a few bed clothes being all that was carried out. There was no insurance on either the house or the effects of the occupants.

### An Ada Booster Returns.

Yesterday afternoon H. R. Snyder of Petersburg, Indiana, who has some good investments in this county, arrived and will spend a week looking about with a view of increasing his holdings. He handed the News a letter expressing his very optimistic views of the future of Ada and Pontotoc county, and it will appear in today's issue of the paper. It is a hard knock on knockers.

## CAPITOL BUILDING IN 3 YEARS, SAYS CRUCE

Oklahoma City, June 22.—"If the Capitol Development company provides \$1,000,000 within two years, as its contract calls for, I will promise that we will have the capitol built and ready for occupancy long before my term of office expires," said Governor Lee Cruce Wednesday evening. His term expires January 1, 1915.

Governor Cruce has not taken the matter of the erection of the capitol building up as yet with the state board of affairs, in whose hands it has been placed with the resignation of the capitol commission, but he will do so within a few days, and will arrange that board's future plan of action. He has notified the Capitol Development company, however that the board will be ready to receive the first payment of \$250,000 on July 1, and it will be turned over to the board at that time.

Under the provisions of the first capitol bill that was passed, plans for the building were to be approved by the legislature, but this was changed in the second bill, in which plans were made subject to the approval of the governor.

"I have formed no definite idea of the kind of a structure I would personally prefer," said Governor Cruce, "but I would like a building sufficiently large to take care of all of the state offices comfortably. In appearance it should be in keeping with

what the citizens of Oklahoma City demand and are entitled to."

Up to Wednesday evening Governor Cruce had heard nothing from Dr. Leo Bennett, the republican member of the capitol commission, who was to have met here with the other members on Tuesday for the purpose of formulating and submitting their joint letter of resignation.

### Good Rainfall in Marshall County.

Madill, Okla., June 21.—A soaking rain, badly needed, fell over Marshall county this afternoon and evening, and the benefit to crops is hard to estimate. Several good rains have fallen recently, but owing to the fact that the weather has been unusually hot, more than the ordinary amount of moisture is needed. According to reports received here from the surrounding counties, the rain has been general in this part of southeastern Oklahoma.

## ASSURED OF SUCCESS

THIRD MONDAY WILL BE TRADE  
DAY FOR ADA—IMPORTANT  
MEETING TONIGHT.

The committee having in charge the matter of establishing a Third Monday Trade Day for Ada, met with sufficient encouragement yesterday afternoon to announce definitely that it will be a go. The business men responded with sufficient liberality to assure the success of the enterprise.

The News is extremely anxious to see this matter pushed. Many other towns with fewer advantages than Ada has, are making a success of these Trade Days and are reaping many advantages from them. There is no reason why Ada should not do the same and if the men who are behind it are given half the support they are entitled to, Ada will have something of which it may well be proud. Be at the meeting that will be held at the club rooms tonight and lend a helping hand.

### A Deserving Case.

Joe Belt is carrying around a subscription paper trying to raise enough money to purchase a brace that will save a child from becoming a permanent cripple. The child in question is the three-year-old son of Mrs. Eunice Hough, a deserving widow, who has been employed by W. T. Cox and wife. The little fellow recently sustained an accident which injured his spine, and Dr. LeFevre states that unless given proper attention at once, will become a cripple for life. A special brace must be made for him, and will cost about \$30, besides the expense of sending him to the hospital where it is to be made. This is a cause that should appeal to every person. It would be a shame to permit the lack of so small a sum of money to leave the child a helpless cripple.

Dr. Truax was up from Frisco this afternoon. He said that only a light shower fell there yesterday afternoon but that the prospect for a big rain was fine when he left home today.

## VIEWS OF A BOOSTER

H. R. Snyder of Petersburg, Ind., as  
Optimistic as Ever Concerning  
Future of Ada and Pontotoc  
County.

I am here again to spend a few days in Ada and Pontotoc county and want to be able to say before I leave that I am the proud owner of more of Pontotoc county's real estate, for as I see it, your county is prosperous and is rapidly advancing in population and wealth, and your future prospects are very bright. In fact, you have abundance of proof of your future development—more than one would dream of. All any one has to do to convince himself that your prosperity is bound to continue is to take a drive over parts of your county and note the large amount of new lands that are being put under cultivation and the many new homes being built in your city and throughout your county, which is always the very backbone of a new agricultural country just developing. There could be no more substantial guarantee of your future growth, and I dare say there are but few, if any, outsiders who have watched Ada's development as closely as I have, for every time I visited your city for the past four years, I have listed the number of handsome business structures, and the many beautiful private homes that were erected during my absence. I remember having made the statement four years ago through the columns of your paper that within ten years Ada would be a city of 10,000 and now want to reiterate it. I also recall the fact, at that time I priced a number of choice building locations both for business and residence sites that I could have purchased from one-third to one-half the price they are selling for today. Men who had the foresight and judgment picked them up. Some improved them while others held for the advance. Others are now snapping up these choice locations at double and treble the price asked four years ago.

and any one can now foresee that one will not have to wait long before there will be another good advance in values, for at the rate Ada is improving the prices of real estate will not remain at its present figure long. Your city is bound to continue to grow. When nature formed these rugged hills, and the many beautiful valleys surrounding your town, and filled the bowels of the earth full of natural resources, nature made at the same time a location for a future city on this favored spot, and some ten years ago a baby town was founded on the spot and named Ada, and her citizens are now helping nature feed and nourish that baby town to grow into an important commercial and manufacturing city at a rapid rate, and while Ada is full of hustling, enterprising citizens whose efforts to build a city have urged many others to join in and help, who have acquired valuable holdings here, whose foresight and good judgment has told them that the real foundation for your future growth did not altogether lie in what man has or will do, but that nature created the location of Ada a natural and proper place to build one of the Hub cities of your state.

It is now more than five years since I first visited your town and county and I will remember I deliberated over the proposition for some time before I could make up my mind that Pontotoc county and Ada was the place to make investments, but at last thought I could foresee your future. You know it is human nature to be skeptical, especially when others are handing you their opinion daily, in a new country just developing.

However, after a more thorough investigation I came to the conclusion that I had found a locality within the borders of Pontotoc coun-

ty that possessed more natural wealth in the way of resources, that offered opportunities for investments than I had found elsewhere, and that the conditions were right here for a poor man or for a man with money. When I say these things about your county and city I do not say it thinking I might influence some one to make an investment that would benefit me for I have nothing to offer for sale but am here to make investments myself.

For, as I see it, no county in your state in the balmy days of the opening of Oklahoma ever offered any more favorable opportunities to the new comers, with a little capital to become independent in a few years for it is a proven fact which stands out boldly, that Pontotoc county possesses rich resources both in the depth of the earth and in her agricultural lands and any ambitious man can soon establish a home of independence, for you have thousands of acres of rich sandy loam soil that has never felt the tillman's plow that can yet be bought cheap, much of which will cost but little to put under cultivation and nowhere in the Southwest do I know of any lands that surpass the fertile fields in Pontotoc county for producing grain, cotton, fruits and vegetables, and a glance at your state or county map will show to any one that you are already blessed with railroad facilities leading out in every direction, that enables you to reach all the hub market for several hundred miles around. What more could a newcomer expect? You surely have a field of untold promises to the investor, for you are assured a big increase in valuations in the near future—for now—with the movement your citizens have on foot to build a system of macadamized roads throughout your county, your lands are bound to enhance in value. I know whereof I speak, as I am a road builder myself, having built \$150,000 worth of macadamized roads in the past five years in our section of country and I know what it has done to increase valuations in farm lands.

Nothing is more important to the farmer than good roads, and this is being recognized in all progressive rural districts. It enables the farmer to market his crop, send his children to school, and reach the centers of trade and population the year round. You are so far advanced in many ways for a comparatively new country, that it looks like the next important work to be taken up by your citizens should be the construction of some hard surfaced roads—bad roads are an enemy to progress. You have an inexhaustible supply of the very best of road material through your county and should be able to build your roads for several hundred dollars per mile less than many other counties in your state. And a movement in that direction will soon cause your citizens to realize how beneficial, up-to-date macadamized roads are and the effect they will have on land values, and profits of tilling the soil, and then your property owners will not spare any expense in building others—one road would be an object lesson. We are building good roads all over our state as fast as the tax levy will permit.

## NORMAN BOURLAND ACCIDENTALLY KILLED

This afternoon J. F. McKeel received word that yesterday Norman Bourland, of Stonewall, accidentally shot and killed himself. The tragedy occurred at Coalgate, but none of the particulars were given. Deceased was about twenty-five years of age.

### Bill Kennedy as a Chicken Raiser.

Yesterday afternoon Bill Kennedy, the hustling salesman for the Western Newspaper Union of Oklahoma City, struck the News like a young cyclone, and after the usual interchange of roasts and an order from the News, Bill bragged about his success as a chicken raiser. He stated that he and his wife have 5,000 fine chickens on their place eight miles north of Oklahoma City, and that they are getting some handsome returns from their patient work with the flock. They have sold about \$150 worth of chickens during the past two weeks.

There is no way of estimating just how much these rains are worth to the county, but they are sufficient to keep the crops growing for sometime to come.

## BAKING POWDER

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

## NURSING TROUBLE.

At best trouble is a hideous thing  
to behold, and it is human nature to  
put it out of sight and never expose  
it to the gaze of either the possessor  
or the world. The first named usually  
wants to forget its existence as far  
as possible, while the world has so  
many troubles of its own that it re-  
sents the efforts of any person to  
share his own.

However, there is a class of people  
who seem to take a special delight  
in exposing their troubles to the  
world. They clasp it to their bosoms  
with a sort of pride that it is theirs.  
Even though it is gnawing and tearing  
at the breast to which it is  
clasped, they cling to it and permit  
it to wax fat from their life blood,  
instead of making an effort to over-

come the demon, and freeing them-  
selves from its power.

Not only do these people go through  
life in a state of misery and keep  
their friends miserable by their per-  
sistent clinging to their worst enemy,  
but most of them fill a grave much  
earlier than they otherwise would if  
they could only bring themselves to  
see how important it is that they  
crush the demon of trouble, or at  
least put it from sight, so that they  
will not be constantly reminded of  
its existence.

That Texas bunch that lynched a  
twelve-year-old Mexican boy who  
stabbed to death a man who struck  
him without provocation, must have  
been hard pressed for excitement.  
Evidently the prohibition campaign  
and the Bailey war have not pene-  
trated to that part of the sand rough.

Had you noticed the new head of  
the News? Many years of active ser-  
vice had worn the old one down un-  
til it could no longer be used, and  
it is our hope that the town will  
reach a point where the circulation  
of the paper will be so large that  
the new head will be worn bald much  
sooner than the old one.

## GIVE THEM THE GLAD HAND.

The McAlester Boosters will arrive  
late in the afternoon of the 29th. It  
is now up to the city of Ada to turn  
out and give the visitors the glad  
hand. Nothing like strengthening the  
cordial feeling between the two cities,  
and besides, it will not be long  
until Ada will likewise be running  
booster trains and of course we shall  
want to return the call of the Mc-  
Alester boys.

## HOUSE TURNS DOWN BRISTOW AMENDMENT

Washington, June 21.—The house  
refused this afternoon, after four  
hours' debate, to concur in the Bris-  
tow amendment to the resolution for  
the election of senators by the people  
the vote being 112 for concurrence  
and 172 against. Under the constitu-  
tional requirement, it would have taken  
of the total vote cast 190 to have  
carried the amendment through. Inter-  
est now centers in the parliament-  
ary situation in which the resolution  
is placed.

Speaker Clark took counsel of sev-  
eral of the best parliamentarians of  
the house, among them Asher Hinds,  
former parliamentary clerk to the  
speaker, and reached the conclusion  
that the best course to pursue was  
to message the resolution with the  
action of the house back to the se-  
nate and leave it to that body to de-  
cide what action to take. Mr. Mann,

the republican leader, held stoutly  
that the senate could not take the  
Bristow amendment off the resolution  
without a two-thirds vote. This would  
be interesting, in view of the fact  
that it was put on by a tie vote of  
44 to 44, with Vice President Sher-  
man casting the deciding vote.

It is believed by the friends of the  
measure, however, that the future of  
the resolution is in fact quite easy,  
as the senate, by a majority vote, can  
reconsider the vote by which the  
resolution was passed when the Bris-  
tow amendment could be again voted  
on.

The unbroken alignment of the  
democrats in the house against fed-  
eral interference in elections in the  
states for representatives and sena-  
tors may have such an impression on  
the few votes in the senate neces-  
sary to reconsider that the course in-  
dicated may be taken. At any rate,  
the majority leaders in the house  
would not today ask for a conference,  
and will probably not do so under  
any circumstances, as they fear abso-  
lute defeat would lie in that direction.  
The vote was strictly on party lines,  
the republican insurgents staying  
with their party, and but one vote  
on each side straying outside the  
lines. They were Burke, a Wisconsin  
democrat, who voted with the republi-  
cans, and Sells, a Tennessee Repub-  
lican, who voted with the democrats.

## HOMER DOTS.

The local showers that have fallen  
in the last week were greatly appre-  
ciated.

J. H. Landrith and brother, Lingo  
are visitors of Centrahoma this week.  
Most all the people of this commu-  
nity attended the singing convention  
last Saturday and Sunday. All re-  
port a nice time.

Mr. and Mrs. R. L. Henry spent  
Sunday with G. W. Black and family.  
Sorry to report that Mr. Kiersey is  
not improving very fast, but hope he  
will soon be up again.

Mrs. J. H. Landrith and Mrs. T.  
L. Fulton spent Monday with Mrs.  
Kiersey.

G. W. Black returned from Love-  
lady Sunday on the sick list. Too  
much dinner, better stay at home  
net time.

A very good thing that Mrs. Ful-  
ton is not jealous, as Mr. Fulton  
was seen Sunday with a young lady.  
Go your best, Tom, your wife says  
she don't care.

Gilbert Jenkins is attending the  
Teachers' Normal at Ada.

The hail storm did some damage  
to the crops east of here.

J. W. Davis, of Ada, had a case of  
"fowl" stomach when he finished  
dinner at Lovelady Sunday.

## EGYPT ITEMS.

The farmers would be pleased if  
it would come another nice shower,  
for corn is needing rain, but cotton  
is doing nicely.

Miss Carrie Palmer was the guest  
of Miss Mary Steel Sunday evening.

Mrs. G. A. South has had the Ty-  
phoid fever, but is able to be up  
some now.

Some of the Egypt people attended  
the Children's Day at Lanham school  
house Sunday. All reported a good  
time and plenty of dinner.

Walter and Winnie Floyd were  
visiting at Colbert Sunday night.

Maude South has been absent from  
Sunday school for the three last Sun-  
days at this place.

Mr. William McGhee, of Nashville,  
Tenn., is visiting his daughter, Mrs.  
South, whom he had not seen since  
before the war.

Sunday school was well attended  
here at this place Sunday.

Miss Ida Martin has been on the  
sick list for some time, but is re-  
ported better at this writing.

Sloan Palmer said "that he was  
going to go with a girl, who was  
old enough to take care of him while  
he was away from his parents." (I  
think it will be a good thing if all  
of the boys would do that too.)

The following guests took dinner  
at Mr. and Mrs. Palmer's Sunday.  
Miss Mary Steel, Eura and Virgil  
Lynn, Miss Maude Hopper, and Mr.  
Hardie Storie.

Miss Dazzie Hopper and Mr.  
Frank Cox were the guests of Miss  
Annie Harris Sunday.

Mr. G. A. South made a business  
trip to Ada Monday.

Mr. E. B. Gregory and family were  
visiting Mr. and Mrs. G. A. South  
and family Thursday.

## GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back  
the Natural Color—Dandruff  
Quickly Removed.

How often one hears the expression,  
"She is gray and beginning to look old."  
It is true that gray hair usually denotes  
age and is always associated with age.  
You never hear one referred to as having  
gray hair and looking young.

The hair is generally the index of age.  
If your hair is gray, you can't blame  
your friends for referring to you as look-  
ing old. You can't retain a youthful ap-  
pearance if you allow your hair to grow  
gray. Many persons of middle age jeop-  
ardize their future simply by allowing  
the gray hair to become manifest. If  
your hair has become faded or gray, try  
Wyeth's Sage and Sulphur Hair Remedy,  
a preparation which a chemist by the  
name of Wyeth devised a few years ago.  
It is simple, inexpensive and practical,  
and will banish the gray hairs in a few  
days. It is also guaranteed to remove  
dandruff and promote the growth of the  
hair.

It is a pleasant dressing for the hair,  
and after using it a few days itching and  
dryness of the scalp entirely disappear.  
This preparation is offered to the  
public at fifty cents a bottle, and is  
recommended and sold by all druggists.

# HOW MUCH Is a Regular Cust- omer Worth to Your Store?

Suppose you could BUY 100 additional  
REGULAR CUSTOMERS during  
the next week or two—customers who,  
for years and years to come, would  
make a MAJORITY of their pur-  
chases of goods in your line at YOUR  
STORE? What would each of these  
100 customers be worth to you?

It is, we think, quite likely that if such  
an investment were possible, you'd  
eagerly pay TWICE AS MUCH as  
it would cost you to secure these 100  
REGULAR CUSTOMERS,  
through an advertising campaign big  
enough and aggressive enough to really  
make people ACQUAINTED with  
your store.

Yesterday afternoon Chief Hounshell made a raid on the rooming house on West Main street and captured about a gallon and a half of booze. Joe Hardin was arrested on a charge of violating the prohibition law.

This morning Peel Mills was given a preliminary hearing before Justice Brown on a charge of horse theft. The justice fixed his bond at \$2,000 the same amount as at first, in default of which he was committed to jail. Roy Kelly was given a hearing on a charge of being an accessory. His attorney moved for a change of justices, and the case was turned over to Judge Barton, who fixed his bond at \$300.

## WYETH'S SAGE AND SULPHUR HAIR REMEDY

ALMOST A MIRACLE

My hair was as white as snow when I commenced using Wyeth's Sage and Sulphur Hair Remedy. One bottle restored my hair to its natural dark brown color. As I am now 70 years old, I consider the result most remarkable. It is an agreeable and refreshing hair dressing, keeping the hair soft and glossy, without being in the least greasy or sticky.

WM. WESTLAKE,  
210 West Main Street, Rochester, N. Y.

Why hesitate when WYETH'S SAGE AND SULPHUR HAIR REMEDY is daily producing just such results?

After years of study and analysis of the hair, we have been able to produce an ideal Hair Tonic and Restorer, which contains an actual constituent of hair, combined with ingredients of recognized merit for treatment of hair and scalp diseases. It makes and keeps the scalp clean and healthy, gives life, strength and lustre to the hair, and

### DALLAS MAY PIPE

WATER FROM OKLAHOMA  
Durant, Okla., June 22.—Durant people are interested because Dallas is considering Blue River as a possible source for an enlarged water supply. The suggestion is taken as a compliment to this city, as it was the first city to tap Blue River, and now enjoys one of the best water supplies in the Southwest. Several other towns adjacent to the river have since drawn upon it for water.

There is some uncertainty as to the exact source of all the water which flows through Blue River, but those who are well informed declare the supply amply sufficient to meet the need of Dallas or any other city of its size. The river is not large, but in all seasons, except in flood times, maintains an even gauge, the drouths apparently having but little effect on the flow of water. However, it is the quality of the water rather than the quantity which makes Blue River a desirable source for municipal supplies.

Excepting for a few days after very heavy rains the water is as clear as crystal and practically pure, being free from minerals and alkali, which make the waters of other larger rivers undesirable for municipal purposes.

The Durant water supply is pumped from the river at Armstrong and conveyed five miles to this city through a twelve-inch main. The Durant pumping station also supplies water to Caddo through a ten-inch main seven miles long.

### HANDICAPPED

This Is the Case With Many Ada People.

Too many Ada citizens are handicapped with a bad back. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills help sick kidneys. Can you doubt Ada evidence?

E. L. Canterbury, Sixteenth St., Ada, Okla., says: "I can recommend Doan's Kidney Pills highly, as they cured me of a distressing case of kidney complaint. My back was so weak at times that I was unable to work, in fact, found it difficult to walk. Dull, nagging pains through my loins also caused me great misery, and I had sharp twinges when I attempted to stoop or lift. The kidney secretions were too frequent in passage and caused me additional annoyance. Doan's Kidney Pills, procured at G. M. Ramsey's Drug Store, rid me of kidney trouble and I have had no return attacks."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Bucalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

# S.S.S. CURES ALL BLOOD INFECTIONS

Contagious Blood Poison, as the name indicates, is an infectious blood disease, of such intense nature that once the virus gets into the circulation, no portion of the body is free from its destructive force unless it is promptly checked.

It usually begins with a tiny sore or pimple as the only outward evidence of its presence. But in a short while its many symptoms begin to make their unwelcome appearance. The mouth and throat ulcerate, itching rashes appear on the body, the hair comes out easily, brown blotches appear on the limbs, etc. So highly contagious is the disease that it is sometimes communicated from one person to another

Some eight years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot. I was advised to use S. S. S. We got some, and I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases.

MRS. T. W. LEE.  
Box 300, Savannah, Ga.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These broke out into sores, and it is easy to imagine the suffering I endured. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. I was soon entirely well, and my skin was as clear as a piece of glass.

H. L. MEYERS.  
58 Clinton St., Newark, N. J.

that there is never any return of the old symptoms; it drives the poison completely out by purifying the blood. S. S. S. is known everywhere as the greatest of all blood purifiers, and for this reason it is a sure cure for Contagious Blood Poison. Write for our Home Treatment Book and any medical advice you may desire, free. S. S. S. is for sale at drug stores.
